STAFF COMMENTS:

Analysis: The stone patio, fence, gate, brick edging, and fountain. There is some concern about the pea gravel patio as it would seem to invite parking putting the amount of parking over the allowed amount. The approval of the pea gravel for the previous owner was for a 5' walk from the parking pad to the back parking area. The expansion of the parking pad appears to meet guidelines though it may be contrary to zoning. Any approval should stipulate that the HPC is not overriding any zoning requirement.

Recommendation: Approval recommended for all but the pea gravel patio depending on the commission's view as to whether this is vehicular or pedestrian and whether it is appropriate as either.

PROJECT DESCRIPTION: 548 S. Main Street

The applicant proposes hardscape changes in the right side yard including parking, fencing, drives, walks, fountain, and patio.

1. Add one addition 10x17 parking space to existing parking pad. Materials to match.
2. Add brick edging to the existing pea gravel drive and expand it as a patio between the parking pad and a proposed fence and gate.
3. Construct fencing and gate. Gate will be wood framed with brick columns and wing walls.
4. Construct a flagstone patio between the well house and rear porch stairs. Install a water fountain at the end of the existing stair landing.
5. Connect the new patio to the driveway through the new gate with pea gravel walk.
